DETAILS

Ocean Grown Abalone Limited (**ASX: OGA, the Company**) is pleased to provide the following operations update and Appendix 4C Cashflow Statement for the quarter ended 30 September 2020.

Sales

Ocean Grown Abalone, Western Australia's largest oceanic harvested greenlip abalone producer, sold 17.7 tonnes of abalone, an increase of 54% compared to Q1FY19 sales of 11.5 tonnes, revenue from abalone product sales increased by 23%. In contrast, the average sales price per kg of abalone declined in the quarter by approximately 20%, compared to Q1FY19. The decline in average price is consistent with other seafood industry participants during the COVID-19 pandemic.

OGA continues to actively explore opportunities to increase its sales, from collaborating with other seafood industry players and developing new domestic markets for OGA's products. The stronger sales position coincides with the Company's efforts promoting its products to the domestic market, with 24% of abalone sales to the local market. In the longer term, OGA remains focused on export markets where the Company has maintained its relationships with its key overseas customers.
